## CABINET STIRRED BY VERGARACRIME

By Associated Press.

Washington, D. C., Feb. 27.—(Bulletin)—That the American government regards the hanging of Clemente Vergara, an American Citizen, near Hidalgo, Mexico, as a subject for reparation by the Huerta government became known after today's Cabinet meeting.

The Cabinet discussed practically nothing else but Mexican affairs at its meeting today. While the Benton incident was discussed in great detail, members of the Cabinet were particularly concerned over the hanging of Vergara.

That act, they believed, had shocked the American people and should not go unpunished. Steps will be taken to impress the Huerta government of the feeling of the United States in the matter, particularly after repeated assurance had been given by the Federals that Vergara would not be harmed.

Some members were inclined to think that Benton at least was indiscrete in going into the camp of a military commander with whom he was not on friendly terms and entering into an argument with him.

Final judgment was not reached by the Cabinet as to the merits of the Benton case, but it was apparent that vigorous steps to procure the body for his widow would be continued.

## VERGARA'S FRIENDS ARE INSISTENT

By Associated Press.

Laredo, Texas, Feb. 27.—Friends of Clemente Vergara, the American who was hanged by Mexican Federals will make an effort to have the body brought here for burial. They assert that they will insist upon responsibility for the execution being fixed.

American Consul Garrett and S. J. Hill, Vergara's brother-in-law, are now at the scene of the execution.

## MEXICANS ATTEMPT TO REOPEN DIPLOMATIC COMMUNICATION WITH U. S.

By Associated Press.

Washington, D. C., Feb. 27.—After a long lapse of diplomatic exchanges between Washington and Mexico City, an attempt has been made to re-open the correspondence by the submission of an appeal by the Huerta Government for the reconsideration by the United States of the recent raising of the embargo on arms to Mexico.

The feature of the communication said to have been issued at Mexico City, last night, is the allegation that a state of anarchy now exists in so much of Mexico as is occupied by the Rebel forces, and it is also charged that the immediate effect of the decree permitting the transportation of arms has been to place the Rebels in a favorable situation for permitting outrages, while preventing the Huerta Government from repressing them as quickly and as energetically as it desires.

On the other hand, it is set out that wherever the Huerta Government is in power full protection has been given to all foreigners. Therefore, the United States is invited to reflect seriously "upon the said consequences" that the arming of Rebels will bring.

## REIGN OF TERROR PREDICTED

By Associated Press.

Washington, D. C., Feb. 27.—Representative Mondell, of Wyoming, in a vigorous attack on the Mexican policy, in the House today, predicted that in the event of the Constitutionalists overthrowing Huerta there would follow a "reign of rape, rapine, plunder and murder." That would spread all over Mexico.

"The recent cold-blooded murder or barbarous execution, whichever it may prove to be, of the ranchman Benton at Juarez," Mondell declared, "has served to throw a sinister light on the character of the Constitutionalist commander of the North; but it is neither a surprise nor revelation to those who have been following developments in northern Mexico. It simply serves to throw into relief the character of the forces of barbarism and outlawry which are the back-wash of the Madero revolution, utterly devoid of all the humanitarian and patriotic instinct that inspired that unfortunate man."

## SELECTS PARTY TO VIEW BENTON'S BODY

By Associated Press.

Washington, D. C., Feb. 27.—Two Americans, two British, two members of the family of William S. Benton and two physicians will be permitted by General Villa to view the body of the dead ranchman, according to a telegram Secretary Bryan received today from Consul Letcher.

Villa is to furnish transportation and accommodations for all of them, the telegram says. The body is at Chihuahua City.

## CHINESE ARE HARD PRESSED

By Associated Press.

Noagles, Arizona, Feb. 27.—As a result of anti-Chinese demonstrations at Cananea, Sonora, this week, arrangements were made today to transport Chinese or other foreigners who might be endangered by repetitions of the demonstrations, across the line into the United States.

Should further anti-foreigner riots occur, it was announced that temporary special dispensation regarding Oriental immigration would be made by the United States Immigration officials along the border.

## BANDIT KILLS AND JAILS ALL HIS OPPOSERS

By Associated Press.

Chihuahua City, Mexico, Feb. 27.—As an explanation of his continued delay in attacking the Federal army at Torreon, 300 miles south of here, close advisers of Gen. Villa today said that the Rebel leader was quite content with his present supreme authority and that he would not push southward until necessity

seems to require it. Practically all of the Villa army is scattered south along the railroad to within a few miles of Torreon and its position of being on the verge of attacking the Federals have been unchanged for weeks.

Imperial military observers agreed today that the Rebels have lost ground by their delay. Gen. Villa, after having arisen from the post of a bandit within a few months, has been wielding the powers of a dictator. He has surrounded himself with men who accept his word as law. It has been openly stated that for Mexicans to express opinions adverse to Villa warrants executions, and not to obey orders would be punished by imprisonment. A Mexican conductor was put in prison because he was late with a train ordered by Villa.

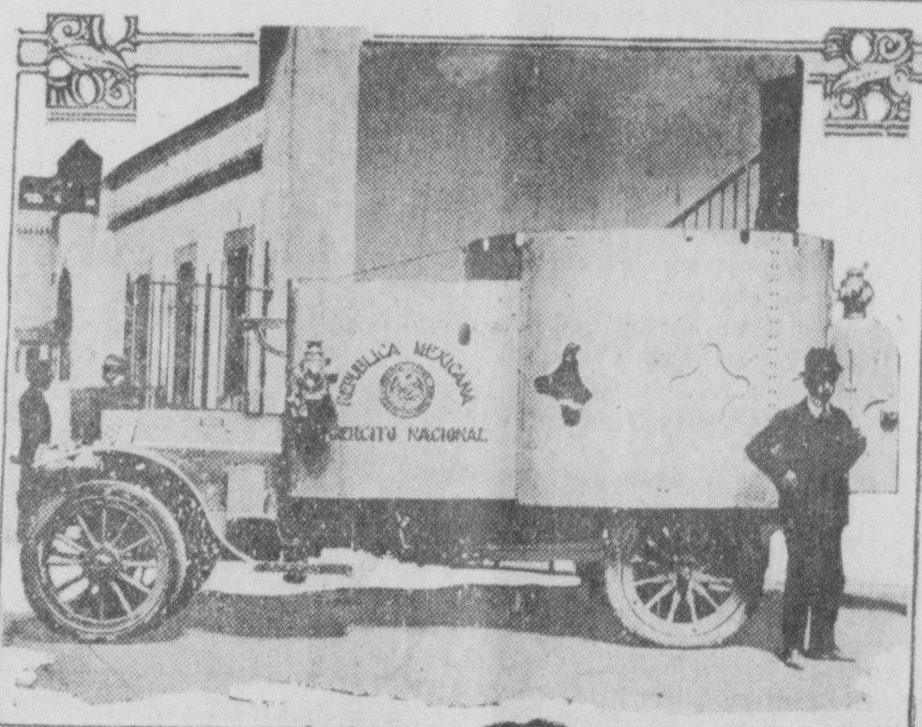

## EDWARDS SAW BAUCH IN JAIL

By Associated Press.

Washington, D. C., Feb. 27.—Consul Edwards at Juarez today reported that he saw the American, Gustave Bauch, in the Juarez jail February 18th, and that according to authorities in the border city, Bauch was afterward removed to Chihuahua with other Americans, names unknown.

Secretary Bryan said today he had no information concerning the reported confessions of General Villa that he had ordered Bauch's execution without a court-martial.

## Mexico Bristles With New Guns; An Armored Auto Is Kidnaped

Photos by American Press Association.

SINCE President Wilson lifted the embargo from the exportation of arms and ammunition to Mexico both sides have strengthened their armament. One of these pictures shows an up to date armored automobile purchased by the Federals for use in Mexico City and suburbs. This land battleship or moving fort, as one might term it, was not so formidable as it looks, for a band of Rebels is reported to have kidnaped the machine when no one was around. The other picture shows a flat car loaded with guns from the United States for the Federals.

## THIRTEEN LONG YEARS IN SHADOW

By Associated Press.

Reading Pa., Feb. 27.—Mrs. Kate Edwards, who has been in the shadow of the gallows for nearly 13 years for the killing of her husband, was released from the Berk county jail today under a pardon granted by Governor Tener and secretly taken from the state to begin life over again.

She was convicted of first degree murder in 1901 and sentenced to be hanged, but four governors declined to fix the day for her execution.

After her conviction petitions were circulated in many parts of the country and were signed by thousands of women protesting against the execution of one of their sex. Mrs. Edwards' case was several times taken to the Board of Pardons, but commutation of sentence was always refused.

Last night the Board, however, recommended that she be pardoned, providing she would not be made a victim of further notoriety. It is believed she was taken to Philadelphia where she will be placed in an institution and cared for. She is nearly 60 years old.

Mrs. Edwards was convicted of the murder along with a negro who was employed with her husband in a quarry near her home. The husband was found dead with his head battered in. The woman later confessed that the negro was innocent of the crime and he was granted a new trial and acquitted.

## CIVIL WAR BY GRAPE VINE

By Associated Press.

Madrid, Spain, Feb. 27.—The Spanish Government has received information that an important revolutionary movement is in progress in Portugal where, it is reported, a condition of anarchy exists. Details are not obtainable because of lack of wire communications.

## STANDS BY POSTMASTER BURLESON

By Associated Press.

Washington, D. C., Feb. 27.—(Bulletin)—Amendments to the postoffice bill to strip the postmaster general of power to lower rates and alter or regulate the parcel post were thrown out by the senate today, 33 to 24.

## PING-CHUN POISONED

By Associated Press.

Tien Tsin, China, Feb. 27.—Assassination by poison, is believed to have brought about the death here today of Gen. Chao Ping-Chun, military Governor of the Province of Chi Li, and former Premier under President Yuan Shi Kai. The Chinese statesman was stricken late last night and died this morning.

## ITALY LIKES NEW TREATY

By Associated Press.

Rome, Italy, Feb. 27.—The Italian Foreign Office today notified Thomas Nelson Page, the American Ambassador, that Italy is favorable in principle to the signature of a new arbitration treaty similar to that concluded by the United States and Bolivia, proposed by Secretary Garrison.

## HUERTA'S SQUEAL BECAUSE REBELS ARM THEMSELVES

Washington, D. C., Feb. 27.—Rumors current in New York that Provisional President Huerta had requested the assistance of the United States appeared to be based on the memorandum issued by the Huerta authorities in Mexico City last night, appealing to this Government to consider the effect of the recent decree raising the embargo on arms.

Whether an appeal amounts to a request for assistance is regarded as a matter of construction, but there is nothing in the nature of a direct request for assistance so far as officials have made known.

## JUDGE EMORY SPEER

He Denies Charges Which Are  
Basis For Impeachment Trial.

Positive denial that he has ever been guilty of official misconduct during the twenty-nine years he has held office was made by Federal Judge Emory Speer of the southern district of Georgia in a brief submitted to the subcommittee of the judiciary committee of the house which recently investigated charges against the jurist.

# BURTON DEFERS ANNOUNCEMENT

Says He May or May Not Be  
Candidate For Re-election.

WILL AWAIT DEVELOPMENTS

Big Republican Rally at Columbus  
Closes With Addresses by Ohio's  
Senior Senator, Former Senator  
Foraker, Congressman Willis and  
Fess and Others—Third Party Mem-  
bers Not Much In Evidence.

Columbus, O., Feb. 27. — With ad-  
dresses by Senator Burton, Congress-  
men Frank Willis and Simeon D.  
Fess, Former Senator Foraker and  
others, the big Republican rally was  
brought to a close. Three thousand  
or more Republicans of diverse shades  
and leanings attended the meeting.  
Yet among the 3,000 was only a  
sprinkling of repentant Progressives,  
and, so far as attendance was indica-  
tive, there was no promise of such an  
amalgamation as will wipe out the  
new third party in Ohio.

Foraker was easily the hero of the  
day. His towering form and white  
hair, apropos of the toastmaster's in-  
troduction as the "white-plumed  
knight," swept the audience to its  
feet. This mead of personal popular-  
ity was divided with Congressman  
Willis, who was hailed time and again  
as "our next governor." But there  
was ample applause for everybody.

Each of the speakers save Senator  
Borah of Idaho took a rap at the state  
administration. "Cox is the issue,"  
exclaimed Congressman Willis in his  
address. Senator Burton declared the  
party must stand firmly for every Re-  
publican principle. He urged unity.  
Congressman Fess said, "We are go-  
ing to have harmony if we have to  
fight for it." D. Mead Massie, who  
was given a boost for the governor-  
ship by ex-Senator Foraker, put the  
same plea picturesquely, portraying  
the folly of a family squabble about  
how the house should be painted  
when the house was on fire.

The meeting cheered lustily for  
woman suffrage when Senator Borah  
declared, "I am a suffragist."

#### Criticizes Wilson.

In his address Mr. Foraker de-  
nounced the Wilson administration in  
its Mexican and Panama canal pol-  
icies and censured Governor Cox. "No  
president," Mr. Foraker said, "ever  
sent so pusillanimous a message to  
congress as that in which President  
Wilson urged the United States citi-  
zens in Mexico to quit that country  
and come back to their own country."  
This message of the president's, he  
said, will go down as the "most  
shameful chapter of its diplomatic his-  
tory." He asserted it is the duty of  
the United States to protect its citi-  
zens in Mexico. Mr. Foraker said he  
was not advocating exemption of  
American coastwise trade from pay-  
ing canal tolls, but that "we certainly  
want that power if it is deemed prop-  
er to exercise it."

One outcome of the meeting was  
the announcement by Senator Burton,  
deferring until April 1 announcement  
of his candidacy for re-election and  
not promising he would make it then,  
saying:

"I may not be a candidate at all.  
What I most desire is the reunion of  
the Republican and Progressive par-  
ties. Should a reunion of the parties  
be impossible, there is every present  
indication that the Progressive party  
will be a negligible quantity in the  
campaign next autumn. As regards  
my own candidacy for the senate, in  
case no reunion is possible, that is a  
matter for further consideration, to  
be determined by no ambition or de-  
sire of mine. I am perfectly willing  
to step aside if that seems best. In  
any event, I feel that there are issues  
upon which Republicans can appeal

SEN. THEODORE A. BURTON.

Senior U. S. Senator from Ohio,  
withheld the expected announcement  
of his candidacy for re-election. Sen.  
Burton has set April 1st as the date  
for making public his intentions, and  
adds, "I may not be a candidate at  
all."

to voters of the state with more ear-  
nestness and force than for years, and  
my best efforts will be given to the  
campaign, with an energy greater  
even than I have ever before mani-  
fested."

#### Finley Informs Wilson.

Columbus, O., Feb. 27.—William L.  
Finley, chairman of the Democratic  
state executive committee, last night  
sent a telegram to President Wood-  
row Wilson informing him of the at-  
tacks made on the national adminis-  
tration by Senator William Borah and  
Former Senator Foraker. Mr. Finley  
added: "The half-million Democrats  
of Ohio, every one of whom is proud  
of you and your administration, join  
in a mighty chorus of congratulations  
to you over the critics you have ac-  
quired and the fire you have drawn."

## GET TOGETHER IN WEST VIRGINIA

By Associated Press.

Charleston, W. Va., February 27.—  
The Republican State Executive com-  
mittee has issued an address to the  
people of West Virginia, reaffirming  
the Huntington platform of 1912,  
practically the same as that adopted  
by the Progressives that year. The  
committee also took the ground that  
constitutional amendments for the  
Initiative and Referendum and Re-  
call would be submitted to a vote of  
the people. This action followed a  
meeting yesterday which was de-  
signed to bring the factions of the party  
together.

## WRIGHT ON CARPET

By Associated Press.

Washington, D. C., February 27.—  
Charges of irregularity and miscon-  
duct have been filed against Justice  
Daniel Thew Wright, of the District  
Supreme court here. The petition  
was filed with President Wilson.

Justice Wright is the judge who  
attracted widespread attention by  
sentencing Gompers, Mitchell and  
Morrison, prominent labor leaders, to  
jail for contempt of court.

The petitions were filed by Wade  
H. Cooper, president of two local sav-  
ings banks, and contain charges of  
alleged misconduct in court and per-  
sonal conduct also.

## MAGNIFICENT WORK WHICH Y. M. C. A. HAS ACCOMPLISHED

Some Idea of Work Done by Young  
Men's Christian Association May  
Be Gleaned From Figures Sub-  
mitted by Secretary Zaner—Vast Good  
Accomplished Which Cannot be  
Given in Figures.

Statistics of the great work done  
by the Young Men's Christian As-  
sociation during the period from  
June 15th, 1912 to February 1, 1914,  
are of absorbing interest, and a lit-  
tle study of the accompanying report  
made by General Secretary Zaner,  
will give some idea of the extent of  
the work of the Association in this  
city and county.

However, the greatest good is not  
announced in the figures, but is ap-  
parent in the moral influences of the  
institution, and in a great many  
ways not apparent at first glance at  
the following statistics.

mane Society, P. R. R. Agents, and  
used as Flood Relief Headquarters,  
also as headquarters for the G. A. R.  
Encampment and the Simultaneous  
Evangelistic Campaign.

Outside of the building the Associa-  
tion has handled the Students' base-  
ball league, provided rest tents and  
first aid at the County Fair and has  
demonstrated a sane celebration of  
the 4th of July and also of Hallow-  
e'en.

Gustave Bauch is not a prisoner in  
Juarez was secured when Frederico

through the municipal jail and all the  
quarters where prisoners might be  
held. The whereabouts of Bauch,  
dead or alive, is still unknown.

## Views of Others

### THE BANE OF CREDIT BUSINESS.

There's not a man in business in  
Athens who after balancing his  
year's business and finding his legiti-  
mate profits for the year represent-  
ed in book accounts and many of  
them uncollectible, but what deplors  
the credit system and wishes there  
were some popular way of eliminat-  
ing it. He knows that such a sys-  
tem is wrong but that method of dis-  
posing of merchandise has so per-  
meated the community that he gets the  
shivers in contemplating a change  
to the right method so he plods on  
the best he can, losing as little as he  
can, but losing steadily and persist-  
ently right along and his loss ac-  
count at the end of the year is ap-  
palling and ruinous in its propor-  
tions.

In figuring his profit in marking  
goods for sale, he must take into  
consideration first his fixed expense  
such as rent, taxes, insurance, clerk  
hire, delivery, freight and drayage.  
Then if he is doing a credit business  
and his customers have his capital  
and cash, he must figure that he  
can't take advantage of the cash dis-

count offered by the wholesaler. He  
must also figure in the uncollectible  
accounts that even under the most  
rigid scrutiny, creep into his ac-  
count books. These things all must  
be reckoned in fixing his selling  
price, hence he must have a long  
profit or go to the wall. It isn't  
pleasant. It isn't desirable and it  
isn't right, but custom is, he thinks  
an inexorable law, so he goes on year  
after year with the worry, the un-  
certainty, the hardships he imposes  
upon himself by observing the cus-  
tom.

Gentlemen it isn't right. It's the  
wrong method. It wrongs you and  
it wrongs your customers. The  
longer a wrong method in anything  
is persisted in the more hopeless the  
tangle and confusion. Right can't  
come out of wrong principle. You  
can live but you can't prosper. You  
can slave but your reward is hope-  
less. There's only one way and that  
is the right way. Chicken heart and  
a gelatinous back bone are not sound  
principles upon which to conduct a  
business. Philanthropy and charity  
have no place in the selling game.  
Selling is business. The sooner the

credit merchant who gives away his  
legitimate profits in bad credits,  
about faces and does business on the  
same basis that his wholesaler re-  
quires of him—cash, thirty or sixty  
days credit and no more credit until  
the merchant has cleared up his ac-  
count—the better it will be for all  
persons interested as right business  
principles are right and will prevail  
if strictly adhered to.—Athens Mes-  
senger.

## The Y. M. C. A. Showing

The Young Men's Christian Association has inaugurated a campaign for the announced purpose of securing subscriptions from the citizens of Fayette county and Washington aggregating the sum of \$25,000. This sum, the association states, is needed to clear up indebtedness on and increase the efficiency of the present plant.

It becomes therefore, proper that the citizens should investigate and weigh the accomplishments, in a financial scale, of the association from its organization to this time.

Of course, we are all familiar with the good work thus far done by the association and the purpose of future good to be done. We all know of and point with pride to the splendid home of the organization and to all the good that has been done and all the good it is proposing to do, but back of it all, there is the dollar and cent proposition and it is with that dollar and cent proposition right now that the people are concerned.

Recognizing the right of the public to inquire into these facts the association has issued a financial statement and as such, that financial statement is unusually simple and intelligible to the average run of people.

The association shows the subscriptions for the building to be forty thousand dollars, Stimson Memorial seven thousand dollars and the Sharp Memorial twenty thousand dollars making the gross assets sixty-seven thousand dollars. The total receipts on these items of assets is fifty-seven thousand and fifty-five dollars and sixty-three cents. The Stimson Memorial and the Sharp Memorial are accounted as paid for in full, a discrepancy of nearly ten thousand dollars is accounted for in the differences between the total sum subscribed and the total sum realized on the subscriptions.

The association also charges itself with fifteen thousand dollars, proceeds realized from the mortgage of the plant. The addition of this sum brings the gross receipt up to the sum of seventy-two thousand and fifty-five dollars and sixty-three cents.

The expenditures total the same figure, including eight thousand dollars, the cost of the property, twenty-nine thousand and five hundred dollars paid to the contractor, the architect's fees, furniture and some equipment, salaries, insurance and office expenses and the cost of the Stimson building. In these items of expenditures appears again the twenty thousand dollar item for the Sharp building.

It was the idea of the association in making out this financial statement to include the Sharp building as a twenty thousand dollar asset because it really belongs to the association and to include it among the expenditures because of the fact that the annuity charged on the building equals the income on twenty thousand dollars at six per cent.

The liabilities listed consist of the fifteen thousand dollar mortgage and the four thousand and fifty-three dollars and fifty-eight cents due on fixtures and equipments. Other unpaid bills totaling thirteen hundred and seventy-two dollars and the estimated shrinkage in current expenditures for two years, two thousand seventy-three dollars and seventy-four cents.

These several items of liabilities on account of the present indebtedness, current expenditures, etc., totaling twenty-five thousand dollars, and it is this sum that it is proposed to raise. Leaving out of the question the moral and philanthropic features, is the investment a good one? At the least calculation there is seventy-five thousand dollars of property which belongs already to the people of the county and the city.

It will be noticed that the financial statement does not disclose any liability to Mrs. Sharp on account of the twelve hundred dollars annuity, but that liability is abundantly provided for by the receipts from the Sharp building so that it may be disregarded entirely in the financial statement.

If an individual was the owner of seventy-five thousand dollars worth of property upon which there was an indebtedness of twenty-five thousand dollars and the individual had the money available to pay off that indebtedness, it would be considered the height of folly, from a business standpoint for him to continue to pay interest on an indebtedness which he could discharge.

This is the dollar and cent proposition and the people are no different from the individual instanced.

Taken altogether the financial showing is remarkably good. The Association has accomplished wonders, measured even by the inflexible rule of practical business. The real value of the property it has welded together and which belongs to the people is far in excess of the money the people have subscribed for their own use and benefit.

We all know that the showing for good is an extraordinary one—one which has challenged the admiration and compelled the praise of those inclined to be sceptical at the start. The glimpse now given behind the curtain increases the public pride because the public's investment has returned big profits in dollars and cents.

Even if the institution had nothing on the credit side of the ledger, except the immense amount of practical good it had accomplished, that is sufficient to show the necessary funds should be raised. But we have more than that—a real property basis. The people's philanthropic institution has become a solvent property-owning concern abundantly worthy of larger investment.

It's a good showing—good in form and good in fact.

## Poetry For Today

## HOW DID YOU DIE?

Did you tackle that trouble that came your way  
With a resolute heart and cheerful  
Or hide your face from the light of day  
With a craven soul or fearful?  
Oh, a trouble's a ton, or a trouble's an ounce,  
Or a trouble is what you make it,  
And it isn't the fact that you're hurt that counts,  
But only how did you take it?

You are beaten to earth? Well, well, what's that?  
Come up with a smiling face.  
It's nothing against you to fall down flat,  
But to lie there—that's disgrace.  
The harder you're thrown, why the higher you bounce,  
Be proud of your blackened eye!  
It isn't the fact that you're licked that counts;  
It's how did you fight—and why?

And though you be done to death what then?  
If you battled the best you could,  
If you played your part in the world of men

Why, the Critic will call it good.  
Death comes with a crawl, or comes with a pounce,  
And whether he's slow or spry,  
It isn't the fact that you're dead that counts.

But only how did you die?  
—Edmond Vance Cooke.

The author of the above poem will appear at the High School Auditorium on Friday, March 6th, and the poem is the first of a series to be published in this column during the next few days.

## ADJOURN WHEN CANNOT AGREE

Philadelphia, Feb. 27.—Unable to reach an agreement on a new wage scale to take the place of the present one, which expires March 31, the joint conference of operators and miners from western Pennsylvania, Ohio, Indiana and Illinois adjourned sine die.

It was announced that this action does not necessarily mean a strike, as it was pointed out that five weeks remain for the two sides to get together in another effort to reach an agreement. It was predicted that another conference would be held before April 1, in a city within the central competitive field.

After the joint conference adjourned, the miners held a meeting, at which John P. White, international president of the United Mine Workers of America, was instructed to call together the policy committee of the organization whenever he deems it necessary.

The policy committee is made up of representatives from every district of the United Mine Workers in the United States and Canada. The break came on the demand which provides that local differences be settled within local districts.

## CINCINNATI FIRE

Cincinnati, O., Feb. 27.—The four-story brick warehouse of the Acme White Lead and Paint company, in the downtown section of this city, was destroyed by fire, the loss being estimated at \$25,000. Several adjoining stores and buildings were also damaged by smoke and water.

## The Creative Impulse.

The creative impulse does not itself know the next step it will take, or the next form that will arise any more than the creative artist determines beforehand all the thoughts and forms his inventive genius will bring forth. He has the impulse or the inspiration to do a certain thing, to let himself go in a certain direction, but just the precise form his creation will take is as unknown to him as to you and me. Some stubbornness or obduracy in his material, or some accident of time or place, may make it quite different from what he had hoped or vaguely planned. He does not know what thought or incident or character he is looking for till he has found it, till he has risen above his mental horizon. So far as he is inspired, so far as he is spontaneous, just so far is the world with which he deals plastic and fluid and indeterminate and ready to take any form his medium of expression—words, colors, tones—affords him. He may surprise himself, excel himself; he has surrendered himself to a power beyond the control of his will or knowledge.—John Burroughs in the Atlantic.

## Proper Way to Walk.

In walking, your feet should point straight ahead and come down flat, heel first. Writers who advise that the ball of the foot should touch the ground first, in common with the calisthenics instructor at school who likely as not advises the same thing do not know anything about the practical side of walking. The former doubtless have in mind the ballroom, and the latter the gymnasium. On a long walk you will naturally fall into the proper way of handling your feet. Let your arms swing naturally also, and for their benefit carry a stout stick—not a stout staff, which is too long and awkward. Keep this stick moving, in one hand or the other, and it will exercise your arms better than the mere act of swinging them will. Keep the shoulders down, the chest up and the body erect. The right posture of the body is as important a factor while walking as it is in the schoolroom.—From "The Boy Scout's Hike Book."

## China's Peerless Iron Mine.

China's famous iron mine, the Tayeh, the foremost in the far east, is especially notable for the ease with which it is worked. It stands peerless in the world in this respect, excavation requiring no machine power. The work is done by hand by the Chinese coolies. The mine is reputed to be inexhaustible in its ore. In the days of the "three kingdoms" the locality formed a theater of bloody fighting, and the vicinity abounds in relics of that memorable period in Chinese history. It is about 3,630 Chinese miles from Peking overland and about 4,980 Chinese miles by water. Tayehhsien is traversed by ranges of hills and mountains, the valleys of which abound in innumerable lakes of all sizes, with water course facilities. Consequently the locality is rich in scenery of great beauty, and the Chinese poets from olden times have never tired of singing of the "eight views" of Tayeh. In the neighborhood of the Tayeh iron mine are found the ruins of ancient iron foundries, probably 1,000 years old. Millions of tons of slag lie in heaps.

## Settled the Question.

In Regensburg, in the middle ages, the headsman died and three applicants presented themselves for the post. A test of their skill would settle the matter. Accordingly three criminals were brought forth for slaughter.

The first headsman made with his sword a tiny nick in the first criminal's neck. "I'll lop him off just there," he said, and swinging his sword round with a great swishing sound, lo! he did as he had said he would.

The second headsman tied a string round his criminal's neck. "I'll cut off his head and bisect the string," he said. And he did as he had promised.

These two first headsmen now began to study and ponder the neck of the third criminal, asking what proof of skill the third headsman should undertake, when the latter with one vast and splendid sword sweep cut off all three heads, thus finishing the criminal and his rivals together and winning the headsmanship of Regensburg amid the applause of all.

# BURGLARS BUSY LOOTING SMALL STORES OF THE CITY

Grocery Stores of T. M. Burns and O. D. Marchant Visited and Goods Valued at Several Dollars Removed—Twelve Fine Chickens Also Disappear During Night—Police Busy in Effort to Run The Crooks To Earth and Break up Gang.

A gang of thieves is at work in the city, robbing outlying groceries and hen roosts, and the police are now working on the cases, and hope to arrest the ones who have been executing the burglaries during the past few nights.

Thursday night the grocery of T. M. Burns, on Columbus Avenue, was entered, and several dollars worth of goods stolen. Entrance was gained by cutting a hole through the rear door and thrusting a hand through to unfasten the lock on the inside of the door. The remainder of the work was easy for them.

A revolver, two boxes of cigars, a quantity of tobacco, some overalls, and other articles were stolen. The burglars also got away with some

cheese and other food which was easily reached.

Friday morning Mr. Burns called the police and placed the details of the affair in their hands. It is claimed that arrests may be made upon the evidence furnished the police.

The previous night the grocery of O. D. Marchant, on Elm street, was entered and burglarized. The glass was broken in the front door and the night-latch turned.

The safe was opened but contained no valuables. Some 400 pennies, a gold-plated watch, some stamps, a pipe, and other articles were stolen. There was every indication that the thieves were familiar with the store, and knew just where to go to lay their hands upon certain articles stolen. After completing their work they withdrew, closing the door behind them.

The same night the chicken house of James Wilt was visited and twelve fine large Plymouth rock chickens were stolen.

It is believed that the work is that of some young thieves who have been causing no little annoyance about the city, and the authorities are now making a careful investigation with a view to breaking up the gang.

# TRUST PROBLEM IS DISCUSSED BY REP. CARLIN

By Associated Press.

Philadelphia, Pa., Feb. 26.—Dissolution and prevention of oppressive business combinations not paternalistic regulation of great monopolies, is what Representative Carlin of Virginia, thinks will be the object of Democratic anti-trust legislation. Mr. Carlin, who as a member of the house judiciary committee is aiding in the preparation of the administration's program of trust legislation, opened a debate here tonight before the Academy of Political Science on "The relation of the federal government to trusts and industrial combinations."

Although the speaker covered the whole field of proposed legislation, he dwelt particularly upon the Clayton-Newlands trade commission bill now pending before house and senate committees, defending the purpose of this measure to limit the scope of the proposed commission instead of giving it the vast powers, including authority to fix prices, contended for by many.

"It should be understood that the trades commission proposed by the Newlands-Clayton bill," said Mr. Carlin, "if enacted into being, has no such power, no such purpose, no

such paternal influence, as is contended for by many, but on the other hand it is proposed to establish a commission in aid of the economic principles of dissolution. The Clayton bill recognizes that the machinery of the courts, and indeed, the courts themselves, are not equipped as they should be to accomplish the most efficient and desirable results. A court in the contemplation of the dissolution of a great combination, should have the aid of a commission empowered to investigate any matter that may be referred to it by the court when a proceeding of dissolution brought by the government, is pending, even including a proposed decree, so that the court in the 'unscrambling of the egg' may have the benefit of the knowledge of a scientific commission in the drafting of an intelligent, comprehensive and efficient decree.

"The Clayton bill meets this necessity, and none other is contemplated, save that of giving intelligent aid to the court when in the judgment and discretion of this tribunal it is desirable."

Advocating supplemental legislation to the Sherman Law, Mr. Carlin discussed proposed measures to give individuals the benefit of government decrees in suits against monopolies, and to prohibit interlocking directorates.

## Juvenile Financial Genius.

"Johnnie," said a prominent mine operator to his youngest the other day, "I'll give you a dollar if you'll dig up the front yard for your sister's new garden." "All right," said Johnnie thoughtfully. "But I shall have to ask for 25 per cent of the contract price in advance. Not as an evidence of good faith, but for working capital." "But—what do you mean?" "Well, you see, I guess I'll bury the quarter somewhere and tell all the boys in the neighborhood that a pirate hid some treasure round there. When they strike that quarter they'll make the dirt fly. I can tell you. In that way I can clean up about 75 per cent. In fact, I'll— "Well, what?" "In fact, I don't know but what I can also arrange so as to find that quarter myself. I'll work it just like that salted mine you were telling mamma about unloading on the street last night." And the father wept tears of joy.—Pall Mall Gazette.

## Scottish and Smart.

John Clerk, Lord Eldon, was of a very convivial disposition. Once the author of "Law and Laughter," after a Bannatyne club dinner, "where wit and wine contended for the mastery," tumbled heavily downstairs on the way to his carriage and broke his nose. When he reappeared in public, looking somewhat odd about the face, some one asked how the accident happened. He said it was the effect of his studies. "Studies!" ejaculated the inquirer. "Yes," growled the judge; "ye've heard, nae doot, about 'Coke Upon Littleton,' but I suppose you never before heard of 'Clerk Upon Stair!'"

## A Possible Explanation.

"I can't understand," said the librarian, "why it is that so few women come here. We have a beautiful and comfortable reading room, and I should think the ladies would like to come in, not only to read, but to rest."

"Yes," replied the trustee, "but I notice that you have at the entrance a big placard which says 'No Talking.'"

# FRANK A. WHITE IS GOING EAST

Well Known Local Citizen Leaves Tomorrow for New Haven, Conn., to Take Charge of Mammoth Wholesale Paint House—Will Move to New Haven in Near Future.

Mr. Frank A. White, who for many years was engaged in the manufacturing business in this city, leaves for New Haven, Conn., Saturday, where he becomes the head of the S. E. Spencer Company's big wholesale paint establishment.

A short time ago the principal owner of the big plant died, leaving the plant without a manager, and Mr. White's ability as a manager being known to the widow of the late owner, an offer was made to Mr. White and he has accepted the position.

For the present he will continue to hold his residence in this city, but a little later he will probably move to New Haven to make that city his permanent home. Mrs. White will go to New Haven as soon as some disposition can be made of their residence property on South Fayette St. The position to be occupied by Mr. White is a splendid one, and the firm is one of the largest paint concerns in the east, and has been established in business for 44 years.

Mr. White was formerly a member of the firm of White & Ballard in this city, and has spent most of his life in the manufacturing business.

# STUART, MAN OF MYSTERY EVADES ALL QUESTION

Sitting in his room at the Cherry Hotel, protesting his innocence of any wrongdoing, and refusing to make public the name of the company he claims to represent, H. A. Stuart, the man who came to this city last week with the avowed intention of establishing a shirt factory here, parries all questions and urges the granting of more time before he is condemned too harshly.

"I will prove to you that I am honest, and that no one will be the loser by my coming here, and that I mean business," is his answer when pressed too closely.

"Just wait until Craig arrives and all will be cleared up," he urges. Craig is the man whom he claims has the full power of locating the "shirt factory" here.

The man cleverly evades all questions as to his home or past life, claiming that he is just temporarily down on his luck, and that when "Craig" comes he will be put right in the eyes of the world.

"I have good reasons for concealing the real truth about my company and the reasons are purely business ones," he lamely answers.

## AGED RESIDENT CRITICALLY ILL

Mr. Solomon Chaffin, of Dayton Avenue, one of the city's oldest inhabitants is in a very critical condition as the result of a fourth stroke of paralysis, which occurred a day or two ago. He was unconscious for 30 hours, but revived somewhat Friday morning.

Mr. Chaffin is aged 83 years, and has shown remarkable vitality in his struggle against the affliction which has befallen him.

His son, Attorney Frank A. Chaffin, and Mr. H. D. Chaffin, also his daughter, Mrs. Trythena Dixon, remain close at the bedside of their father, while another son, Loten W. Chaffin, of Ethridge, Tenn., is now on his way to this city to be near his father.

## MANY COMPLAINTS AGAINST CANINES

The vicious dog nuisance is on the increase in Washington, according to the number of complaints which have reached the police during the past few days, concerning animals which have attacked and painfully wounded local citizens.

Two instances of persons being bitten were recorded Thursday, Warren A. Bacon being wounded in the hand by a bull dog at the sales pavilion, and a son of Michael Lyons, suffered a badly lacerated leg when attacked by a vicious dog owned by a neighbor.

He now states that it is the "Troy" shirt that his alleged company manufactures.

He has kept closely to his room for the past 24 hours, and has written to "Craig" in Cincinnati. However, the man has failed to respond by wire, and there is a standing call for him at each of the hotels in Cincinnati, it is claimed.

He has proved too much of an enigma for the hotel management to decipher up to the present time. However, he has stated he will tell all he knows not later than tonight. He refuses to give out anything for publication, however.

It is understood that he must answer to the management of the hotel for the expenses he has incurred to date, not later than Saturday night.

One of his stories made public Friday afternoon late was that he lost his pocket book while in the post-office at Dayton, and that he had \$48 in it, besides mileage books worth several dollars.

He denies that he asked Proprietor Hart, of the Manhattan Hotel, Dayton, for money, stating that Hart gave it to him when he learned that his pocketbook had been stolen.

On his way up-town Friday morning one man counted nine dogs within a distance of six squares, and only two of the animals had the license tax required. All were unaccompanied by their owners.

Under the law the owner of a vicious dog is responsible for damages done by the animal.

East places his liabilities at \$2,119.68 and his assets at \$1,736. The liabilities are made up largely of mortgages against his property.

He is one of the few Fayette county farmers who ever filed a petition in bankruptcy.

## B. F. LELAND ON ROAD TO RECOVERY

Mr. B. F. Leland, the well known proprietor of Leland's News Stand, underwent a critical operation for the throat trouble which during the past week developed into a serious menace, at the Fayette Hospital Thursday night.

Attending physicians pronounced the opinion that Mr. Leland could not live through the night without the operation, and his chances for recovery with an operation of this nature, affecting the blood vessels of the neck, were by no means encouraging.

Dr. W. D. Haynes was summoned from Cincinnati and with Dr. H. L. Stitt, assisted by Drs. Todhunter and Jenkins, performed the operation. The glands at the left side of the throat were found to have hardened as the result of a gathering quite out of the ordinary.

Mr. Leland came through the operation well and his chances for recovery are now thought to be favorable.

Many friends in this community share with his family in rejoicing over the apparent success of the operation.

## REDUCTION APPLIES IN SOME INSTANCES

Express companies are still making a strong bid for business, and express wagons are bearing huge posters calling attention to "Reduction in Express rates," and that a receipt is given for every package, together with insurance on all packages up to \$50 value.

At the same time local shippers, who send heavy packages by express, have become aware of the fact that the "reduction" has been upward instead of downward on heavy packages for long hauls, while a reduction has been made on packages that could go by parcel post.

The Brownell Packing House is one of the concerns in this city which is paying the increased rate upon goods shipped by express.

## BACON LEAVES FOR SUNNY SOUTH

Mr. and Mrs. Warren A. Bacon left Friday for the Bacon Plantation in Alabama, where they will make their future home. He shipped his household goods and all of his personal property with the exception of several horses which have been consigned to the spring sale of the Ohio Horse Sales Company in this city.

Evert Wilson accompanied Mr. and Mrs. Bacon, and will not return until he erects some 14 miles of Page wire fence on the Bacon estate.

Mr. Bacon moved to this city a year ago, coming from Kentucky. He is the owner of Peter Billiken, and many other good race horses.

## Harvard's First Building.

No man now living can describe as an eyewitness the crudities of Harvard's first building, where the ground floor was devoted to academic uses, religious and literary exercises and the purpose of refectory, kitchen and buttry, while above were students' quarters, mere cells of the rudest sort.

The building was far from weather proof, and more air than light was admitted by the windows, which were only partly glazed, oiled paper serving elsewhere to let in a few of the sun's rays and keep out the "coarsest of the cold," as Artemus Ward said when he hung an old hoopskirt over his chamber window at the country hostelry in midwinter.

Not even the most rudimentary of table equipment was supplied at the college eating room. His own knife and fork were carried by each student when he went to dinner, and after he had finished he wiped them on the tablecloth.—Dial.

## Wasp Waisted Cretans.

In describing the civil guards at Canea, Mr. Trevor-Battye in "Camping in Crete," alludes to the slender waists of the Cretan men:

One point about the figures of these men, he says, as of all the mountain villagers, is the extreme smallness of their waists, which in some cases are almost wasplike. It is interesting to observe that this has always been a Cretan characteristic, for the figures on the frescoes and vases in the Museum section of the museum in Candia (e. g., the famous "Cup Bearer") have the same remarkable slenderness of waist.

He is not sure whether this slim waist is natural or whether produced by tight belting.

He Explained.  
There was in Broadminster, says the "Lighter Side of English Life," a resourceful person who invented plausible answers to questions when he did not know the right ones. He had been talking to a lady about a "Breeches" Bible picked up by a brother parson for sixpence, when she asked what a "Breeches" Bible was:

"A 'Breeches' Bible?" he cried. "Oh, a 'Breeches' Bible is the one that was carried by Cromwell's troopers in their pockets. It was made specially for carrying about—small, you know, and compact. I remember reading that several of the soldiers had their lives saved owing to the bullets having lodged in the volume in their breeches pocket."

"Not really?" said the lady. "How very interesting! I do believe that I heard something like that having happened, I forget where."

## A Tip to the Poets.

His (Richard Hovey's) voice was admirable, sonorous and colorful, and he used it excellently whether to read or recite. It was a novelty to editors, when they asked him to submit a poem, to have him ask "Perhaps you'd like this?" Forthwith he would recite the poem he had to offer, not faltering in a line and bringing out the thought and feeling of it all magically, as we read the first poets gave their soul to rapt listeners. In case the poem happened to be unsuitable for the purpose Hovey would smile unperturbed and proceed to recite his second choice. If the poem were accepted on his recital he would go back to his apartment to write out a copy of it and send it to the editor.—Richard Duffy in Bookman.

# VILLA TO LEAVE FOR THE FRONT

Useless For the British Consul  
to Proceed to Chihuahua.

## TO CONDUCT PROBE AT JUAREZ

American State Department Officials Have Reason to Believe That the Mexican Rebel Commander Can Not Produce the Body of William Benton, the Slain British Subject. Bauch Not in Juarez.

El Paso, Tex., Feb. 27. — The sudden decision in Washington against the sending of British Consul Percival to Chihuahua to view the body of William S. Benton is unexplained here, but it is generally believed that the agents of the United States state department here and at Chihuahua have suggested the inadvisability of sending the consul and his party to Chihuahua at present. The consul will mean'time do what investigating he can in El Paso and Juarez.

Dispatches state that Villa is preparing to leave for Torreon to direct the proposed rebel attack upon the federals, and the supposition is that the state department thinks that when Consul Percival reached Chihuahua he would find Villa absent "at the front," and that the officers left behind would declare that they had no authority to permit the body to be exhumed.

It is also gathered here that the state department and the British ambassador are not satisfied with Villa's reason for saying he will hold the body at Chihuahua after the examination is made.

It is generally thought here that Mr. Bryan's representatives have reason to think that Villa can not produce the body of the dead Englishman and that the trip would be useless.

## BRYAN SWITCHES TEXAS GOVERNOR

Washington, Feb. 27.—The absorbing question raised yesterday by the talk of sending marines to Mexico City was taken under consideration by the United States because of the action of the other powers in sending legation guards to Mexico City. It now appears these guards consist of from 100 to 200 men, instead of a dozen or so as at first supposed.

Secretary Bryan announced that he had received from Governor Colquitt of Texas an inquiry as to whether there would be any objection to the state of Texas sending men into Mexico to ascertain and arrest those who were responsible for the death of Clement E. Vergara, an American, whose body was found swinging from the limb of a tree near Hidalgo. Secretary Bryan replied that the state department is doing all it can to bring about the arrest and punishment of those responsible for Vergara's death. He added, however, that for the state of Texas to send a military force into Mexico would involve responsibilities which only the federal government was in a position to assume.

## VILLA CONFESSES BENTON'S MURDER

Washington, Feb. 27.—Reports are current in unofficial circles here that Villa had confessed to the killing of Benton, the British rancher, without the formality of a court-martial. Officials in the state department have received no information to this effect.

On top of this report came information which indicated that a split between Carranza and Villa is likely to occur at any time. It has been known here for several days that many of the Constitutionalists who are close to Carranza have been chafing under Villa's conduct and have been rapidly reaching the conclusion that Carranza must break with him if the latter is to save himself and the movement which he inaugurated.

The conduct of Villa in the killing of Benton and his action in refusing a satisfactory explanation to the United States caused Carranza to attempt to exercise his authority as chief of the Constitutional revolution, and has led Villa to inform the agents of Carranza in no unmistakable terms that he is not taking orders from anyone. While outwardly Villa has appeared to accept Carranza as chief, it has been known for weeks that Villa was asking nobody what he might do and reporting to nobody what he had done.

## BECKER IN TOMBS

New York, Feb. 27.—Former Police Lieutenant Charles Becker returned to the Tombs from the death house at Sing Sing to await a new trial for freedom. He returned to the city to be greeted with the statement that he will enter on his retrial before the last of May, with either Justices Samuel Seabury or Vernon M. Davis on the bench. Becker and his lawyer both professed themselves as pleased over the announcement, the prisoner adding, "It can not come too soon for me."

## Rexall Dyspepsia Tablets

are, we honestly believe, the best remedy made for Indigestion, Dyspepsia and all other Stomach Ills

### We Know They're Good

Rexall Dyspepsia Tablets, in addition to other ingredients, contain Pepsin and Bismuth, two great digestive aids used by the entire medical profession. They soothe the inflamed stomach, check the heartburn and distress, stimulate a healthy secretion of the gastric juice, aid in rapid and comfortable digestion of the food and help to quickly convert it into rich red blood, and thereby into flesh, bone and muscle. They relieve stomach distress promptly, and, used regularly for a short time, tend to restore the stomach to a comfortable, easy-acting, healthy state. They aid greatly to promote regular bowel action.

### Delays Are Dangerous

Don't neglect indigestion, for it frequently leads to all sorts of ills and complications. The pain and discomfort is not the most unfortunate part. The fact that when the stomach is not acting right, the material needed to repair the wastes that are constantly taking place in the body is not being given to the blood either in the proper condition or fast enough is far more serious. Nothing will cause more trouble than an unhealthy stomach. The blues, debility, lack of strength and energy, constipation, biliousness, headaches and scores of other serious ailments result from the failure of the stomach to properly do its work.

### You Risk No Money

Our willingness to have you use Rexall Dyspepsia Tablets entirely at our risk proves our faith in them. We always sell them this way, and it is because we know that they have greatly benefited scores of sufferers to whom we have sold them. There's no red tape about our guarantee. It means just what it says. We'll ask you no questions. You needn't sign anything. Your word is enough for us. We know that when they help you you will consider it money well spent even if they had cost you ten times as much. If they don't help you, the money you paid for them is yours, and we want you to have it.

## O'GORMAN SUMMONED TO TESTIFY

Final Effort to Be Made to  
Identify James Gaffney.

### OUTCOME OF SULZER'S STORY

Former Governor Testifies That the Senator Informed Him That Contractor Stewart, the Senator's Client, in Telling of Attempted Hold-up, Was Positive the Man Who Approached Him Was Gaffney.

New York, Feb. 27.—United States Senator James A. O'Gorman will be called before the grand jury in a final effort to identify James E. Gaffney, the personal and political friend of Charles F. Murphy, as the man who tried to get \$150,000 from James C. Stewart while the latter's bids for contracts were pending before the canal board.

His appearance is made necessary because of testimony given in the John Doe inquiry by Former Governor Sulzer, who swore that Senator O'Gorman told him that Stewart, the senator's client, in telling of the attempted holdup, was positive that the man who approached him was the James E. Gaffney who has been associated with the Tammany leader for years. Sulzer said the senator indicated to him that there was no question of the identity of the man who wanted \$150,000. Stewart has failed to identify the living James E. Gaffney as the man who approached him, but he has told the grand jury that he believes this James E. Gaffney is the man. The fact that Chief Magistrate McAdoo reverted to this phase of the graft inquiry after it had apparently been dropped, and that Sulzer was so positive in his statements, led Assistant District Attorneys Edwards and Embree to say that it is

now incumbent upon them to call Senator O'Gorman.

Mr. Sulzer affirmed that Charles F. Murphy did not return to the late Anthony N. Brady \$25,000 that was handed to him as a campaign contribution by Judge Samuel E. Beardsley. Mr. Brady's lawyer, He declared that the \$25,000 which Murphy gave to Brady was in settlement of a suit brought against the Tammany leader by Brady, and he challenged the district attorney to produce the records of that suit as a matter of public interest and concern.

Judge Beardsley testified recently that Brady told him that Murphy did give him back \$25,000, but he said Brady did not identify the sum as that which he first offered to Sulzer and then gave to Murphy for campaign purposes.

## OLDFIELD DEFEATED

### De Palma Wins Vanderbilt Cup Race In Record Time.

Los Angeles, Feb. 27.—Two enemies, once fast friends and teammates, were drawn together on the Santa Monica course to battle for highest honors in the William K. Vanderbilt cup race. With victory made the sweeter by their rivalry and the keen contempt each holds for the other, Barney Oldfield and Ralph De Palma, heroes of many thrilling auto races, urged their cars on their best. They resorted to every advantage gained by past experience and thrilled thousands.

De Palma won. His time for the 35-laps course was 3 hours, 53 minutes and 41 seconds; Oldfield's time was 3 hours, 55 minutes and 1 second, 1 minute and 20 seconds behind De Palma.

The average speed of the winner for the distance, 294.035 miles, was 75 1/2 miles an hour. De Palma broke the Vanderbilt cup race record, made by Mulford at Savannah in 1911, when he scored an average of 74.07 miles an hour. The Santa Monica course record, held by Teddy Tetslaff, was not endangered. The mark is 78.72 miles an hour, made over a distance of 404 miles.

It was with remarkable consistency that De Palma upheld his right to the Vanderbilt cup, which he captured in Milwaukee in 1912. His feat of piloting his Mercedes over the course the entire distance of the race without a single stop stands out as the great feature of the contest. Fifteen cars started and only five finished. William Carlson, Jr., driving the speedy little Mason in which Mulford won the 200-mile record at Columbus, O., finished in third place.

## GROWERS LOSE ON CUBAN SUGAR

Washington, Feb. 27.—Louisiana sugar growers lost the second round of their fight to keep up the duty on sugar when Attorney General McReynolds handed down an opinion that Cuban sugar is entitled to enter the United States at all times during the life of the present reciprocity treaty on payment of a duty of 20 per cent less than other sugars.

The Louisianans contended vigorously that there was a conflict in the new tariff law between its reaffirmation of the Cuban reciprocity treaty, which provides for a 20 per cent preferential for Cuban sugar, and that part of the law which provides for a general reduction of the duty on sugar of 25 per cent, beginning March 1. They hoped that the attorney general would find that there could not be a reaffirmation of the treaty and a reduction in sugar duties. The attorney general's opinion, however, will result in an almost immediate reduction in the rate on Cuban sugar, keeping it as now, 20 per cent under other sugars. After March 1 Cuban '90 per cent' sugar will be admitted to the United States on payment of a duty of about 1 cent per pound.

### CENTRAL LEAGUE CIRCUIT STANDS

Dayton, O., Feb. 27.—It was decided at the meeting of the Central league owners here that the league circuit will not be changed. It had been anticipated that Toledo might be taken into the circuit, but the owners concluded it would be unwise to take a chance on Toledo supporting the Central league after it had lost representation in the American association.

Girl strikers threw snowballs and potatoes at strike-breaker and jeered them through the streets.

## KING GEORGE IS A REAL FAN

London, Feb. 27.—King George and 40,000 of his subjects and every American in London saw the White Sox beat the Giants in an 11-inning game at the Chelsea football grounds by the score of 5 to 4. It was a wonderful crowd to get together on such short notice. The visit of the king assured the success of the exhibition.

Ambassador Page presented John McGraw, Charles A. Comiskey, James Callahan and Joseph Farrell to the king, who shook the hand of each man heartily.

The American ambassador then handed a new ball to the king, which the latter threw to Callahan, thus symbolically pitching the first ball. From that moment until Daly knocked his home run in the eleventh inning and won the game for the Sox the king was intensely absorbed in the contest. Ambassador Page sat at his right and Secretary Laughlin at his left, to keep the king posted on the plays. The king was a bear for information. He did not miss a single point and insisted on every detail of the play being handed to him.

### WILEY IS HAPPY

Mrs. Austin's famous 'pancakes' make a really delicious wholesome breakfast.

### Better Than Calomel

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O. adv

## MOVING TIME IS AT HAND ONCE MORE

The country's moving day—on or about March first—is at hand, and already the movers are busy making preparations for the event.

There will be a great deal of changing about in this country this season, probably more than the average amount of moving.

The moving season usually occupies from one to two weeks, and during that time the renters, or persons who have leased other property, arrange for a simultaneous move so that none will have to move into a house before his neighbor leaves it.

Not only does the annual moving day affect the farm renter, but considerable changing about usually occurs in the city at the same time.

## START WAR ON THE HOUSE FLY

The New York Board of Health has just fired the first shot of the season in the war against the house fly, and the warning can be applied in this city with equally good results.

The first bulletin urges that flies which have hibernated in the warm corners of dwelling houses be sought out and killed.

"One fly now means innumerable millions later on," says the warning. "The time to destroy the fly is before it has had a chance to lay its eggs."

## TEN APPLICANTS FOR CITY JOBS

Five of these were for policemen and five for positions on the city fire fighting force.

The examination was conducted by Municipal Civil Service Commissioners, Dr. Roy Brown, Dr. C. E. Page and Horace Ireland. The result of the examination will probably be known sometime next week.

## ELLIS GIVES HIS VERSION

By Associated Press.

Chicago, Ill., Feb. 27.—William C. Ellis, on trial for the murder of his wife, today testified that his wife had confessed her love for another man and refused to listen to his pleadings to return to their home and children in Cincinnati.

After pleading with her and being repulsed, Ellis said he could remember no more of what happened.

"I simply seemed to give way. The first thing I knew I found myself in bed with my arms around Mrs. Ellis. I had on her kimono, and—and—I saw my darling was dead." Ellis said he then attempted to commit suicide by cutting his throat and wrists.

## SYMPATHY IS WITH THE GIRLS

By Associated Press.

Canton, Ohio, Feb. 27.—Striking girl operators of The Stark County Telephone Company today canvassed business houses in an effort to persuade people to remove their phones.

The girls claim that over 100 subscribers have agreed to cancel their contracts if the demands of the strikers are not granted. Tomorrow has been designated by the girls as tag day, and they will solicit money to carry on the strike.

It was reported today that line-men may strike.

## WILL TAKE MAN TO THE WORKHOUSE

Chas. Ferguson, the man who stole a fat hog from the Carey Persinger farm near South Plymouth, and sold it to a Sabina butcher, and who was later arrested, admitted his guilt, and sentenced to the Xenia Workhouse for 90 days, and given a fine of \$100 and the costs, will probably be taken to the workhouse Saturday morning.

He has failed to raise the amount of the fine, and will spend several months in the broom factory.

## BUFFUM TRIAL NEARING CLOSE

By Associated Press.

Little Valley, N. Y., Feb. 27.—Mrs. Cynthia Buffum, on trial for the murder of her husband, may know her fate tonight. The attorneys were summing up today.

It is considered that much depends on the confession of Mrs. Buffum to a detective when she says she was pilled with liquor.

#### Honey Ants.

Certain Mexican ants are selected by their kindred as storehouses of honey. They are fed with honey until the abdomen speedily becomes smooth and round and so filled with honey that the skin is transparent. These ants are doomed to pass the remainder of their lives as mere honey cells, from which their kindred extract the honey when it is required. There are several specimens of these ants in the British museum with the honey still within their transparent bodies. The Mexicans raid the nests of these ants for the sake of the honey that their bodies contain, and the ants are eaten raw as sweet meats.

## IN CONTEMPT FOR REFUSAL TO GIVE SOURCE OF NEWS

By Associated Press.

New York City, Feb. 27.—George Burdick, city editor, and William Curtin, ship news reporter, of the New York Tribune, were adjudged in contempt by Federal Judge House for having refused recently to answer questions concerning their source of information relative to smuggling cases, accounts of which were printed in the Tribune.

Each was fined \$500 but the court said the defendants would have an opportunity to purge themselves should they desire to answer the questions before another grand jury.

## COUNTRY IS NOT FACING CRISIS IN UNEMPLOYED

By Associated Press.

New York City, Feb. 27.—The country is not facing an unusual crisis in its number of unemployed. This was the consensus of opinion expressed at the National Conference on Unemployment, which began a two days session here today.

"There is no problem of unemployment in my state," said W. C. Cheny, delegate from Kentucky. "Not long ago manufacturers were actually unable to procure the labor they needed."

## ELEVEN CONVICTS SHOT BY TROOPS

By Associated Press.

Gayaquil, Ecuador, Feb. 27.—Eleven men were killed and 13 wounded in a sharp fight between the Government troops and prisoners attempting to escape from the penitentiary. The convicts killed their wardens and dashed for the gates cheering for Col. Carlow Concha, the Rebel commander at Exmeraldes.

Troops were called from the barracks and, in a fight, 7 prisoners were shot dead and 6 wounded.

#### Pictures With Poetic Titles.

Poetic titles for pictures began to be used by painters about the time when Christmas cards were invented. Before that period a painting was called "Portrait of a Man," "An Interior With Figures," "A Woody Landscape," and such like, as the subject befitted. When the sentimental fashion really set in nearly every artist took counsel of an anthology. The late Sir William Orchardson had a very pretty taste in titles, and recently at Sotheby's was seen an interior with two figures in the foreground called in the catalogue:

How delicious is the winning Of a kiss at love's beginning!

—London Telegraph.

#### Overshot.

The parents of a ten-year-old boy had so much trouble making him hear their calls while he was at play that they decided his hearing was defective. So they took him to a specialist.

The latter made several of the ordinary tests, and the boy could hardly hear a word. To all appearances there was something radically wrong with his hearing. Shaking his head, the specialist walked into the far corner of the room.

"My boy," he said in a voice little above a whisper, "Here's a nickel." The lad squirmed in his chair. A grin spread over his countenance. "You can't fool me with that bluff," he said.—New York Times.

## Spring Fertilizers

will be more generally used this year in spring crops than ever before

## FOR TWO REASONS:

### FIRST

Farmers who have experimented find their yield increased and the more bushels the more dollars.

### SECOND

Fertilized crops mature earlier and the quality of the grain is much better. Especially is it important to grow first-class corn, as under the act of the Federal Agricultural Commission all corn will be graded after June 1st.

## There are no Fertilizers on the market more profitable than WILLIAMS & CLARK FERTILIZERS

In them the right plant foods for the growing crops—be it Corn, Oats, Wheat or any other crop—is properly compounded for the best results.

Fayette County's Leading Prize Winners in the National and State Corn Shows, both this year and last year, used THESE FERTILIZERS in growing prize crops.
